

August 2019, Kottlingbrunn/Austria

## **New Sales Management at WITTMANN BATTENFELD**

***Effective 5 August 2019, Mrs. Valentina Faloci has taken over as Head of Sales at WITTMANN BATTENFELD in Kottlingbrunn. In her position as Sales Director she succeeds Siegfried Köhler, who was responsible for this task for the last five years.***

After her graduation in Electrical Engineering from the University of Florence and several years of professional work in Italy, Valentina Faloci started her career at Alten GmbH, a leading engineering service provider based in Munich. In 2017, Mrs. Faloci was appointed Business Development Director at the Austrian subsidiary of the Alten Group in Vienna. In this capacity, she was responsible for developing and cultivating new business relationships for key account customers in various technical fields, mainly in the automotive sector.

Rainer Weingraber, Managing Director at WITTMANN BATTENFELD, is glad to have secured the services of Valentina Faloci for this challenging task: "With her engineering background and previous professional experience, as well as her language skills, Mrs. Faloci fulfills all prerequisites for continuing the path of success our company has followed so far. We look forward to working together with her."

## **The WITTMANN Group**

The WITTMANN Group is a worldwide leader in the production of injection molding machines, robots and auxiliaries for the plastics processing industry, headquartered in Vienna/Austria and consisting of two main divisions: WITTMANN BATTENFELD and WITTMANN. They jointly operate the companies of the group with eight production plants in five countries, and its additional sales and service companies are active with 34 facilities on all important plastics markets around the world.

WITTMANN BATTENFELD pursues the further expansion of its market position as an injection molding machine manufacturer and specialist for state-of-the-art process technologies. As a supplier of comprehensive, modern machine technology in modular design, the company meets both present and future market demands for plastics injection molding equipment.

The WITTMANN product portfolio includes robots and automation systems, material handling systems, dryers, gravimetric and volumetric blenders, granulators, temperature controllers and chillers. With this diversified range of peripheral units,

WITTMANN offers plastics processors solutions to cover all production requirements, ranging from independent production cells to integrated plant-wide systems.

The syndication of the various segments under the umbrella of the WITTMANN Group has led to complete connectivity between the various product lines, for the benefit of plastics processors with an increasing demand for seamless integration of processing machinery with automation and auxiliaries.
